KA Group LLC
Kiev
Ukraine

28th January 2016

"As a Power Networker, International Speaker and the Global Leading Authority on Networking, Relation Capital and Global Expansion, I have extensive experience involved in organising, training and speaking to audiences all over the world, across more than 54 countries.

In that capacity I work with many event organizers and came across many event planning companies, but my experience with KA Group in Ukraine was one of the most memorable and special ones.

Not only KA Group organized the event in the most professional and structured way, they really took care and committed to a special experience of every individual participated in the event. Starting with the attendees, the sponsors, the exhibitors and ending with KA Group team and me as the keynote speaker.

I was impressed with KA Group drive, determination, integrity and tenaciousness in providing valuable, inspiring and practical events to share top knowledge.

I could not be more pleased and I would highly recommend to any company interested in increasing their revenue and strengthening their position in the Ukrainian market that they invite Alyona and KA Group team to become a part of your Event's team.

I look forward to a long and continued relationship working together with Alyona and the entire Special team of KA Group."
